Dear Mr. Gonski.

The ANZ Bank and its directors, Silent in the face of Overt Corruption

I refer to my letters of 20th August 2015 and 28th April 2016 and your replies of 9th October 2015 and 16th May 2016.

In my earlier letters I provided you with sufficient detail and evidence of the following matters and things which I now restate for the purpose of this letter.

In the period 1984 to 1990 the bank's subsidiary MCL Finance was subject to the overt fraud and conspiracy described in the Victorian Parliament on 21st November 1985.

That fraud was also a flagrant and crass fraud against my family and me.

The known and demonstrated effect of that fraud and conspiracy was to prevent me as owner and/or MCL as mortgagee from selling my land to anyone other than the timeshare company named in parliament as beneficiary of that fraud and conspiracy.

In full knowledge of the fact of and the effect of that fraud and with the knowledge and consent of MCL, MCL's solicitor John Norman Price was also solicitor for that timeshare company.

In other words with irreconcilable conflict of interest Price was solicitor for fraudster and victim.

In 1988, while acting as solicitor for the timeshare company John Norman Price and the now Major General Justice Greg Garde and the solicitor for the Council and Water Authority named in parliament, Ian Lonie, overtly conspired with one another and misled and deceived the then Victorian Administrative Appeals Tribunal and knowingly concealed and perpetuated the fraud against MCL and my family and me.

Then in 1990, in full knowledge of and constrained by the ongoing fraud MCL finance sold my land in the circumstances of the fraud and sold it to a company controlled by the children of a director of the timeshare company. John Norman Price acted as solicitor for MCL in that mortgagees sale.

My family and I suffered great loss as a consequence of the ongoing fraud and of the sale.

My cause of action was against the Council and Water Authority named in Parliament as conspirators and in 2005 I issued Supreme Court Proceedings to recover the loss and damage suffered by my family.

In that proceeding Garde was barrister for the water authority and in that proceeding I alleged and demonstrated the conduct of Price and Garde.

In 2006 Justice Robert Osborn published purported Reasons for Judgment which essentially repeated the misrepresentations made in 1988 to the tribunal and which no reasonable and informed person would or could believe and which are nothing more than a farrago of crass misrepresentations the effect of which was to deny and conceal the conduct of Price and Garde and for that purpose deny and conceal the fraud described in Parliament and deny and conceal the palpable fact that my land was sold in the circumstances of that overt fraud.

In my letter of 20th August 2015 I provided you with a broad overview and requested that you stand with me against the corruption.

In reply and in the face of the material placed before you, your reply tritely expressed respect and confidence in the justice system and its officers and you refused my request.

In my letter of 28th April 2016 I provided you with specific detail of and supporting documents of the overt 1988 misrepresentations of Price and Garde and of the essentially identical and overtly false and overtly fabricated purported Reasons of Justice Robert Osborn.

In my 2016 Letter I made the exceedingly simple and trivial request that you authoritatively state that the water supply agreement at the root of the fraud cannot be construed as represented by Price and Garde in 1988 and cannot be construed as represented by Justice Robert Osborn in his purported Reasons.

I provided you with a copy of the water supply agreement and of Garde's written submission. I also provided you with Price's present telephone number and web links to all relevant documents.

You refused my request and your delegate, Ms Robyn Pain, justified your refusal and made it appear moral with misleading assertion and circular argument. It could be argued that your refusal was less than honest.

In this matter you are fixed with knowledge of or being wilfully blind to unequivocal evidence that Price and Garde misled the Tribunal in 1988.

You are also fixed with knowledge of or being wilfully blind to unequivocal evidence that Justice Robert Osborn made essentially identical misrepresentations in his purported reasons and that no reasonable person with even a modicum of intellect and common sense would or could hold a belief as to those reasons.

You are fixed with knowledge of or being wilfully blind to evidence of serious high level corruption in the Justice System of Victoria and which in this instance has its roots in the conduct of the solicitor for MCL and Garde.

The ongoing losses and damage to my family and me flow from the conduct of MCL and of the solicitor for MCL and Garde and the subsequent conduct of Justice Robert Osborn.

My present impecuniosity is entirely due to the fact that Osborn ordered that I pay Garde and his 2006 associates almost \$1,000,000. That order flows directly from the facts that MCL's Solicitor, Price and Garde deceived the Tribunal and Osborn fabricated Reasons to conceal that corrupt conduct. My total losses exceed \$10,000,000

The unfortunate fact is that high level corruption in the justice system and in banks and elsewhere exists because the perpetrators are assured that no-one of standing has the courage and integrity to stand up.

I renew my request of you and I renew my requirement that you allow a moratorium on my loan.

I will not stand by quietly while you concurrently ignore the corruption which has its roots in the conduct of MCL and of the solicitor for MCL and refuse to allow a moratorium and move to sell my house. My young family lost its first home due to the overt corrupt conduct of MCL's solicitor and Garde.

I have published a new you tube video which intricately details the fraud and judicial corruption and your present refusal to act in respect of corruption. The link is on my website <http://courtsontrial.com>

That video forms part of this letter

Your present refusal and failure to stand up demeans you and the bank.

I await your urgent response.

Yours Faithfully
